Nr 1 January 2012 Year 1

VODA (Vega One Design Association) is the international umbrella for seven national organizations as mentioned above. Members are Albin Vega owners, the Swedish fiberglass 27 feet sailing cabin-cruiser designed by late Per Brohäll (picture shown at top). The longkeeled sea-going yachts, some 3400 in number, were serial-constructed during the '60ties and '70ties in Sweden. Presently the VODA executive committee is

formed by (l) Walther Nerving (Denmark), President and (r) Rob Kloosterman ( The Netherlands), Secretary/treasurer. This moment VODA represents over 1.000 Albin Vega owners in Europe and North America. Please check the clubnames above for their websites.

## Introducing the Voda Working Groups

One of the results of the VODA meeting at Copenhagen, november 24th 2011 is de formation of 2 important working groups. “Technical” and “Promotion”. The idea is, from each country organization a “technical” and a

“promotion” member to take part in the various workinggroups. Initially Ted Uren, U/K (left), Steve Birch, U/K (middle) and Dieter Främbs, Germany have taken a seat in the Technical Group. Lars Emell, Sweden (left) and Rob Kloosterman formed the Promotion Group. Need them? Their e-mail addresses are shown under their names.

## Certification of Vega's

Voda's Technical Working Group took a flying start in developing a certificate for our Vega's. Ted Uren has already done quite some work on this. Certification is deemed necessary to distinguish well maintained and safe seagoing yachts from those which are not. Owners, insurers and brokers will consider this instrument indispensable in the near future. It all comes together as a technical file, developed by VODA, which acts as an evidence portfolio for a fit and classic status. An effort to keep Vega's sustainable at the high end of the market. Becoming owner of such a certificate will be entirely on a voluntary basis. More

information will follow.

## “Solotheamericas”

As many Vega sailors know by now, Matt Rutherford (Canada, Vega St. Brendan) is undertaking a non stop solo trip around the America's. Check his amazing blog on rounding Cape Horn last week. Also read [here about the purpose](#) of this trip. St. Brendan suffers seriously from well known “mastproblems” on this voyage. We hope to get the full story once Matt is back home.
